**DIVISION 2 (29 CFR 1910)
GENERAL OCCUPATIONAL SAFETY & HEALTH RULES**

ESTABLISHED FEDERAL STANDARDS
(1910.11 - 1910.19)**

**Oregon Occupational Safety and Health Division (Oregon OSHA)
Department of Consumer and Business Services

AO 6-1999

The Oregon Department of Consumer and Business Services adopted these rules pursuant to ORS 654.025(2).

The Secretary of State Designated OAR Chapter 437 as the "Oregon Occupational Safety and Health Code." Six general subject areas within this code are designated as "Divisions."

- **Division 1** General Administrative Rules
- **Division 2** General Occupational Safety and Health Rules
- **Division 3** Construction
- **Division 4** Agriculture
- **Division 5** Maritime Activities
- **Division 7** Forest Activities
- **Oregon Revised Statutes (ORS)** 654 The Oregon Safe Employment Act (OSEAct)

Oregon-initiated rules in this division of the Oregon Occupational Safety and Health Code are numbered in a uniform system developed by the Secretary of State. This system does not number the rules in sequence (001, 002, 003, etc.). Omitted numbers may be assigned to new rules at the time of their adoption.

Oregon-initiated rules are arranged in the following Basic Codification Structure adopted by the Secretary of State for Oregon Administrative Rules (OAR):

Chapter <i>437</i>	Division <i>002</i>	Rule <i>0322</i>	Section <i>(1)</i>	Subsection <i>(a)</i>	Paragraphs <i>(A)(i)(I)</i>
-----------------------	------------------------	---------------------	-----------------------	--------------------------	--------------------------------

The majority of Oregon OSHA codes are adopted by reference from the Code of Federal Regulations (CFR), and are arranged in the following basic federal numbering system:

Chapter	Division	Part	Subpart (Subdivision)	Section	Paragraphs
437	002	1910	S	.303	(a)

The terms "subdivision" and "subpart" are synonymous within OAR 437, Oregon Occupational Safety and Health Code.

ADOPTION AND EXTENSION OF ESTABLISHED FEDERAL STANDARDS

B

NOTE: The following federal rules were adopted by reference by APD Admin. Order 16-1988, filed 11/10/88, effective 11/10/88.

OAR 437-002-0010 is the rule which adopts by reference the federal standards in Division 2/B, **Adoption and Extension of Established Federal Standards.**

This copy includes amendments through 3/29/95 made by OR-OSHA Admin. Order 4-1995.

NOTE: Oregon OSHA adopted by reference corrections and technical amendments issued by federal OSHA and published in the Federal Register. Federal OSHA made simple corrections, deleted redundant provisions, and clarified and reorganized various other provisions throughout the standards. OR-OSHA Admin. Order 4-1997, filed 4/2/97, effective 4/2/97.

NOTE: Federal OSHA amended the standards that regulate employee exposure to 1,3-Butadiene and Methylene Chloride. Oregon OSHA adopts these standards by reference into Oregon's Division 2, General Occupational Safety and Health Rules; Division 3, Construction; Division 5, Maritime Activities; and amend Oregon's Air Contaminants, by OR-OSHA Admin. Order 6-1997, filed and effective 5/2/97.

Federal OSHA has determined, based on studies and tests, that the current permissible exposure limits (PELs) do not properly protect workers. Both final standards have reduced PELs.

In order to reduce exposures and protect employees, OSHA's 1,3-Butadiene and Methylene Chloride standards include requirements such as engineering controls, work practices and personal protective equipment, measurement of employee exposures, training, medical surveillance, hazard communication, regulated areas, emergency procedures and recordkeeping.

NOTE: Federal OSHA revised its safety and health regulations for Longshoring and those parallel sections of its Marine Terminals standard. Although the longshoring and marine terminal rules are "vertical" standards that apply only to longshoring and marine terminal activities, OSHA has also made minor changes to some of the general industry provisions referenced within these rules. These general industry requirements to the terminology used in the marine cargo-handling environment. Oregon OSHA adopts these revisions to Division 2/B (29 CFR 1910) and Division 5 (29 CFR 1917 and 1918) by OR-OSHA Admin. Order 9-1997, filed and effective 12/31/97.

NOTE: Oregon OSHA adopted by reference the new federal OSHA powered industrial truck operator training standard. The new rule requires a training program based on: the trainee's prior knowledge and skill, types of powered industrial trucks in use, hazards in the workplace, and the operator's demonstrated ability to handle a powered industrial truck safely. The new training standard will apply to all Oregon employers except agriculture.

B ADOPTION AND EXTENSION OF ESTABLISHED FEDERAL STANDARDS

Oregon Administrative Rules
Oregon Occupational Safety
and Health Division

The existing Oregon-initiated rule 437-002-0227, Additional Oregon Rules for Powered Industrial Trucks, in Division 2/N was amended to avoid any duplication with federal text. Similar language was added in OR-OSHA's Division 3/O, as rule 437-003-0094, to accompany the new federal standard on powered industrial truck operator training to maintain uniformity between construction and general industry standards. Also adopted at this time, is a portion of the material handling equipment rule in the construction standard (Oregon's Division 3/O), 1926.602(c)(vii) and (viii); and, a portion of the cranes and derricks rule (in Division 3/N) 1926.550(a)(19), which Oregon had inadvertently not adopted from the June 30, 1993 Federal Register.

OR-OSHA Admin. Order 6-1999, filed 5/26/99, effective 5/26/99.

A vertical line in the margin indicates changes since the last printing of this code.

SCOPE AND PURPOSE / CONSTRUCTION WORK

B

SUBDIVISION B

ADOPTION AND EXTENSION OF ESTABLISHED FEDERAL STANDARDS

Authority: Secs. 4, 6, and 8 of the Occupational Safety and Health Act, 29 U.S.C. 653, 655, 657; Walsh-Healey Act, 41 U.S.C. 35 et seq.; Service Contract Act of 1965, 41 U.S.C. 351 et seq.; Sec. 107; Contract Work Hours and Safety Standards Act (Construction Safety Act), 40 U.S.C. 333; Sec. 41, Longshore and Harbor Workers' Compensation Act, 33 U.S.C. 941; National Foundation of Arts and Humanities Act, 20 U.S.C. 951 et seq.; Secretary of Labor's Order No. 12-71 (36 FR 8754), 8-76 (41 FR 25059), 9-83 (48 FR 35736), 1-90 (55 FR 9033), or 6-96 (62 FR 111), as applicable; and 29 CFR Part 1911.

§1910.11 Scope and Purpose.

(a) The provisions of this Subdivision B adopt and extend the applicability of, established Federal standards in effect on April 28, 1971, with respect to every employer, employee, and employment covered by the Act.

(b) It bears emphasis that only standards (i.e., substantive rules) relating to safety or health are adopted by any incorporations by reference of standards prescribed elsewhere in this chapter or this title. Other materials contained in the referenced parties are not adopted. Illustrations of the types of materials which are not adopted are these. The incorporations by reference of Parts 1915, 1916, 1917, 1918 in §§1910.13, 1910.14, 1910.15, and 1910.16 are not intended to include the discussion in those parts of the coverage of the Longshore and Harbor Workers' Compensation Act or the penalty provisions of the Act. Similarly, the incorporation by reference of Part 1926 in §1910.12 is not intended to include references to interpretative rules having relevance to the application of the Construction Safety Act, but having no relevance to the application to the Occupational Safety and Health Act.

Stat. Auth.: ORS 654.025(2) and 656.726(3).
Hist: APD Admin. Order 16-1988, f. 11/10/88, ef. 11/10/88.

§1910.12 Construction Work.

(a) **Standards.** The standards prescribed in Part 1926 of this chapter are adopted as occupational safety and health standards under section 6 of the Act and shall apply, according to the provisions thereof, to every employment and place of employment of every employee engaged in construction work. Each employer shall protect the employment and places of employment of each of his employees engaged in construction work by complying with the appropriate standards prescribed in this paragraph.

(b) **Definition.** For purposes of this section, "**construction work**" means work for construction, alteration, and/or repair, including painting and decorating. See discussion of these terms in §1926.13 of this title.

B

CONSTRUCTION WORK / SHIPYARD EMPLOYMENT

(c) Construction Safety Act distinguished. This section adopts as occupational safety and health standards under section 6 of the Act the standards which are prescribed in Part 1926 of this chapter. Thus, the standards (substantive rules) published in Subdivision C and the following subdivisions of Part 1926 of this chapter are applied. This section does not incorporate Subdivisions A and B of Part 1926 of this chapter. Subdivisions A and B have pertinence only to the application of section 107 of the Contract Work Hours and Safety Standards Act (the Construction Safety Act). For example, the interpretation of the term “subcontractor” in paragraph (c) of §1926.13 of this chapter is significant in discerning the coverage of the Construction Safety Act and duties thereunder. However, the term “subcontractor” has no significance in the application of the Act, which was enacted under the Commerce Clause and which establishes duties for “employers” which are not dependent for their application upon any contractual relationship with the Federal Government or upon any form of Federal financial assistance.

(d) For the purposes of this part, to the extent that it may not already be included in paragraph (b) of this section, “**construction work**” includes the erection of new electric transmission and distribution lines and equipment, and the alteration, conversion, and improvement of the existing transmission and distribution lines and equipment.

Stat. Auth.: ORS 654.025(2) and 656.726(3).
Hist: APD Admin. Order 16-1988, f. 11/10/88, ef. 11/10/88.

§1910.15 Shipyard Employment.

(a) Adoption and extension of established safety and health standards for shipyard employment. The standards prescribed by Part 1915 (formerly parts 1501-1503) of this title and in effect on April 28, 1971 (as revised), are adopted as occupational safety or health standards under section 6(a) of the Act and shall apply, according to the provisions thereof, to every employment and place of employment of every employee engaged in ship repair, shipbreaking, and shipbuilding, or a related employment. Each employer shall protect the employment and places of employment of each of his employees engaged in ship repair, shipbreaking, and shipbuilding, or a related employment, by complying with the appropriate standards prescribed by this paragraph.

(b) Definitions. For purposes of this section:

(1) Ship repair means any repair of a vessel, including, but not restricted to, alterations, conversions, installations, cleaning, painting, and maintenance work;

(2) Shipbreaking means any breaking down of a vessel’s structure for the purpose of scrapping the vessel, including the removal of gear, equipment, or any component part of a vessel;

(3) Shipbuilding means the construction of a vessel, including the installation of machinery and equipment;

(4) Related employment means any employment performed as an incident to, or in conjunction with, ship repair, shipbreaking, and shipbuilding work, including, but not restricted to, inspection, testing, and employment as a watchman; and

(5) Vessel includes every description of watercraft or other artificial contrivance used, or capable of being used, as a means of transportation on water, including special purpose floating structures not primarily designed for, or used as a means of, transportation on water.

Stat. Auth.: ORS 654.025(2) and 656.726(3).

Hist: APD Admin. Order 16-1988, f. 11/10/88, ef. 11/10/88.
