## Public Education Class Descriptions

Workshop Schedule July - Dec. 2024

All classes are scheduled for 4 hours unless specified otherwise.

Attending an Oregon OSHA class helps you gain important knowledge and skills. The certificate should not be considered formal Oregon OSHA certification of professional competencies or qualifications.

#### **Bloodborne Pathogens**

You will learn about: the bloodborne pathogens rule and written exposure control plan. Topics will include basic information about routes of exposure, disease processes, control measures, and training requirements.

#### **Confined Space Safety**

You will learn about the definition of a confined space and a permit required confined space; hazards; alternative procedures to control atmospheric hazards; the written program and entry permit system.

#### **Excavation Safety**

You will learn about: the role of the competent person, planning considerations, specific hazards resulting from excavation work, requirements for protective systems, and Oregon OSHA's soil-classification methods.

#### **Forklift Safety**

You will learn about the Oregon OSHA rules for Powered Industrial Trucks and developing a forklift training program. This class does not offer forklift operator certification (cards).

#### Hazard Communication – Aligned with GHS

You will learn how to: write a hazard communication program, complete a chemicals list, conduct employee training, and analyze container labels and Safety Data Sheets (SDS). This how-to workshop guides you through developing and implementing an effective hazard communication program. Provides 3 credits toward recertification of Oregon certified pesticide applicator licenses.

#### **Hazard Identification and Control**

You will learn about: the types of workplace hazards, hazard correction, developing an inspection checklist for the walk-around inspection, and writing an effective safety inspection report. This class builds on the hazard identification and hazard control modules that are included in Oregon OSHA's introductory class Safety Meetings and Committees.

#### Job Hazard Analysis (JHA)

You will learn how to: determine which jobs need a JHA, write an effective safe job procedure, and use the JHA to improve safety programs. Conducting JHAs is required for all companies intending to achieve Safety and Health Achievement Recognition Program (SHARP) certification.

#### Lockout/Tagout and Machine Safeguarding

This two-part workshop reviews the requirements found in the Oregon OSHA rules, the Control of Hazardous Energy (Lockout/ Tagout), and Machinery and Machine Guarding.

#### Lockout/Tagout

You will learn about the purpose and scope of the lockout/ tagout standard; lockout and tagout procedures; training criteria; and periodic inspection criteria.

#### **Machine Safeguarding**

You will learn about Oregon OSHA machine guarding requirements; hazardous motions and actions; guards and devices; and training guidelines.

#### Safety and Health Management Principles

You will learn: why a safety and health management system is important, become familiar with the 7 core elements of an effective safety and health management program, and learn about best practices and overcoming obstacles.

#### Safety and the Supervisor

You will learn about: costs and benefits of taking corrective action, and the five general safety supervision responsibilities outlined in the Oregon OSHA rules. Through class discussion and group exercises, you learn about leadership that supports safe behaviors and conditions.

#### Safety Meetings and Committees

This introductory class discusses the role and purpose for the safety meeting and/or committee; employer and employee responsibilities; and safety committee training requirements.

#### **Worker Protection Standard**

Protection for Pesticide Handlers and Workers: You will learn about the Environmental Protection Agency's (EPA) Worker Protection Standard (WPS), along with Oregon OSHA's unique requirements related to the standard. The WPS applies to people who work on farms, in forests, nurseries, greenhouses, or other locations that use pesticides.

### Public Education Directions

Workshop Schedule
July - Dec. 2024

#### **EUGENE**

Oregon OSHA Eugene Field Office Training Room • 1500 Valley River Dr. Ste 150, Eugene, OR 97401 • 541-686-7913

Follow I-5 S to Valley River Dr in Eugene. Take the exit toward Valley River Center/Willagillespie from Delta Hwy. Merge onto Valley River Dr. The building will be on the right.

\*Free Parking Available.

#### **SALEM**

DCBS – Labor & Industries Bldg. • 350 Winter St NE, Salem, OR • 503-947-7443

From I-5 take Santiam Hwy (Exit 253). Go west on Mission St. Go past 17th St and onto the overpass. Get in right lane and take the Willamette University/ City Center Exit. Follow signs to 12th St and State Offices. Turn left on Chemeketa, go straight through four-way stop intersection, and past the underground parking. Turn right on Winter St and the Labor & Industries Building is on the right.

Limited parking is available. The Yellow lot, located north of the L&I Building, is \$6.00 a day and accepts only debit/credit cards. There is metered parking in the underground parking structure that uses coins only and is \$.80/hr. There is also metered parking in front of the L&I Building on the Winter St side that is \$1.50 an hour with card. Some metered parking can range from 2 hour, 4 hour and 10 hour, and the vehicle must be moved after that time.
