

February 25, 2010

**Oregon OSHA - Adopted Changes
Federal Amendments to Consensus Standards for Personal
Protective Equipment in General Industry and Maritime Activities,
And
Oregon-initiated updates to consensus standards in
Agriculture and Forest Activities**

This rulemaking is to keep Oregon OSHA in harmony with recent changes to Federal OSHA's standards.

Federal OSHA revised the personal protective equipment (PPE) sections of its general industry, shipyard employment, longshoring, and marine terminals standards concerning requirements for eye- and face-protective devices, and head and foot protection.

Federal OSHA updated the references in its regulations to reflect more recent editions of the applicable national consensus standards that incorporate advances in technology. Federal OSHA requires that PPE be safely designed and constructed for the tasks performed.

Amendments to the PPE standards include a requirement that filter lenses and plates in eye-protective equipment meet a test for transmission of radiant energy such as light or infrared.

Oregon OSHA adopted the changes in general industry and maritime activities as published in the September 9, 2009 Federal Register. The updated references are also made in Oregon OSHA's Division 4, Agriculture, and Division 7, Forest Activities.

This is Oregon OSHA Administrative Order 2-2010, **adopted and effective February 25, 2010.**

Please visit Oregon OSHA's web site www.orosha.org for proposed, adopted, and final rules, as well as current publications, training opportunities, and much more.
