## Oregon OSHA – Adopted Federal Corrections, Technical Amendments, and Updates in General Industry, Construction, and Maritime Activities

This rulemaking is to keep Oregon OSHA in harmony with recent changes to Federal OSHA's standards published in three Federal Registers.

Federal OSHA updated the references in standards to recognize the 2009 edition of the American National Standard for Industrial Head Protection, and is deleting the 1986 edition of that national consensus standard because it is out of date. These changes were published in the June 22, 2012 Federal Register.

Federal OSHA corrected an editorial instruction printed in the June 22, 2012 Federal Register. This correction was published in the July 23, 2012 Federal Register.

Federal OSHA removed an unnecessary term in Appendix C of Respiratory Protection; restoring inadvertently removed requirements in Mechanical Power Presses; and, corrected a cross reference in two paragraphs in Appendix A to subdivision L of scaffold standards in construction. These changes were published in the August 7, 2012 Federal Register.

Oregon OSHA adopts these corrections/amendments/updates in general industry, construction, and maritime.

This is Oregon OSHA Administrative Order 7-2012, **adopted and effective December 14, 2012.**
